This one isn't that bad, it has all the basic info and even insights in to the hacking System. But here's were it goes bad.\* The Pre-Walkthrough Chapter has no more info that the Manual\* The Walkthroughs lack maps, and sometimes that's all you need.\* Numerous Typos in the Encoded messages make decoding them in the Hacking a nightmare.\* The Dificluty estimates are way off.\* They forgot to show you how to make the HoverCraft MOVE!\* Enter the Matrix is one of those games

were the path is pretty clear and in MOST(not all) cases you don't even need the Strategy guide.\* On the Plus side, even with the typos, it makes the Hacking System MUCH easier to figure out.My Advice? Don't order it here, go to a store and flip through it a bit to see if it's what your looking for, and make your own decision.4 of 6 people found the following review helpful. Very HelpfulBy A CustomerThis game guide helps. Alot! Great to have because of the time line it comes with that teels the history and events of the Matrix whichincludes the Anime. Also it gives a walkthrough on how to hack into the game using the hacking system, which will unlock alot of secrets. So go out and get cuz it's the best guide out there.0 of 1 people found the following review helpful. I forgot what the red blue pills stand for?By pimpin' aYes! I love this guide! Let me give you a few reasons.1.It comes with a big pimp poster!2.It's got pimp pictures!3.I like the cover.Yay!
