**Corrine Kenner : Epicurean Recipe Cards** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Epicurean Recipe Cards:

2 of 2 people found the following review helpful. These are awesome Tarot cards By Vickie Brown These are awesome Tarot cards. Great recipes... For our last get together I had all the attendees pick a card from their own decks at home before hand then tell me what it was. They had no idea what I was up to but we had the most wonderful combination for our dinner. It was quite balance and the recipes are impressive. Not dull but not to intricate. LOVE these cards. I should have bought them when I first saw them before they were out of production. I paid a hefty price but I would do it again. 0 of 0 people found the following review helpful. Five Stars By Mike Really well thought out 0 of 0 people found the following review helpful. ... because the recipe is on them they aren't very useful for everyday readings By Emily Massarotti Well these cards are cute and it is a novel idea but they are rather large and because the recipe is on them they aren't very useful for everyday readings. In fact I may have used them once and put them away. If you are a collector though you'll probably like having them all the same.

Taking the old adage "you are what you eat" to new perspectives, the Epicurean Tarot Recipe Cards are chock full of recipes to nourish not only your body, but also your mind and spirit. Cards may also be used for traditional tarot

readings! This oversized deck is packaged in a deluxe display box.
