Esa-Pekka Salonen : ESA-Pekka Salonen: Insomnia for Orchestra (Score) before purchasing it in order to gauge whether or not it would be worth my time, and all praised ESA-Pekka Salonen: Insomnia for Orchestra (Score):

In the words of the composer Insomnia was written between March and November 2002. Technically speaking, it is a set of variations based on a harmonic model separated by a Ritornello-like section, which is essentially a pedal point on the note e. The sound of Insomnia is darker and deeper than that of some of my other orchestral works. I decided to add a quartet of Wagner Tubas to the brass section for the very particular sonority only these rare and weird

instruments can produce.
