Quality is good, the price is fantastic, and the editing and fingering suggestions are very good (and you definitely need them for these etudes!). The size and clarity of the print is very nice also. 6 of 6 people found the following review helpful. Good editing By JMy daughter really liked this version as it had more helpful markings than the version her teacher used. Definitely cannot go wrong with this version. 4 of 5 people found the following review

helpful. Chopin fan must!By nohemy martinezIf you are a Chopin aficionado, this book is a must for your collection. Chopin's Etudes which were intended to be "exercises" are in fact very challenging. The pieces themselves are each distinct and beautiful.
