Scruffy Productions : EverQuest: The Planes of Power (Prima's Official Strategy Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised EverQuest: The Planes of Power (Prima's Official Strategy Guide):

5 of 5 people found the following review helpful. Trivial content makes for an incomplete referenceBy Todd M. OwensThis book really isn't bad; it just seems so incomplete.It really does a good job of describing the changes to game that Planes of Power provides. All the level 60 plus spells are listed along with the high level disciplines. And the map section is useful, being limited to "lowbie" areas outside the major cities; occasionally handy to have all in one place. There is a decent description of many of the "new" planes, with a listing of monsters.It is not, however, a complete, "latest and greatest" reference to the Everquest game. In my opinion, an up-to-date, complete reference is sorely needed.9 of 9 people found the following review helpful. DisappointingBy Karsten WeideThe "Luclin" EQ guide (this guide's predecessor) was worse than the "Kunark" guide (the definitive EQ guide), and this is still worse. Rather than updating and cosolidating the comprehensive "Kunark" Guide and adding the new Planes of Power info,

the authors hastily slapped together bits of information and added some old maps and some lines on race/level questions. The new info bits exhaust themselves with some of the new beyond-level-60 spells, 2 maps of new zones and some random quests. Not worth the money. 3 of 4 people found the following review helpful. Not up to par. By A Customer While this book is very informative with learning the trade skills and the elements required to help your skills. I was very disappointed that it was not like the other strategy guides in that it had all the spells for the classes in it including all the new ones. It only listed the higher level spells and my old book is outdated. It would have been nice to have all the books combined into 1.

You Will Rule the Planes of Power™! Specific details on all of the planes including: Knowledge, Tranquility, Justice, Innovation, Disease, Nightmare Raiding tips and tricks included Comprehensive list of all Planes of Power spells Locations of all vendors revealed
