Tim Jon Semmerling : "Evil" Arabs in American Popular Film: Orientalist Fear before purchasing it in order to gauge whether or not it would be worth my time, and all praised "Evil" Arabs in American Popular Film: Orientalist Fear:

0 of 0 people found the following review helpful. Great item. Promptly shipped. By EclecticCollector Great item. Promptly shipped. 9 of 9 people found the following review helpful. An intriguing survey By Midwest Book Review The 'evil' Arab figure has long been a popular Hollywood icon: how long is documented in 'EVIL ARABS IN

AMERICAN POPULAR FILM: ORIENTALIST FEAR, which surveys how the stereotype evolved and how it reflects real conflicts between U.S. and Middle Eastern cultures and perceptions. Chapters use analysis of six selected films, from *The Exorcist* to *South Park*, to consider their topics, Arab myths, and how underlying tensions encourage Americans to project the idea of evil on Arab personas. An intriguing survey not just for movie-goers, but also recommended for film students interested in the cinema and cultural representation; particularly at the college level of discussion and analysis. 0 of 2 people found the following review helpful. Great book
By Aladdin Elaasarwe need to learn why Hollywood is so biased in portraying many people. This a very serious study

Runner-up, 2006 Arab American National Museum Book Awards, 2007
The "evil" Arab has become a stock character in American popular films, playing the villain opposite American "good guys" who fight for "the American way." It's not surprising that this stereotype has entered American popular culture, given the real-world conflicts between the United States and Middle Eastern countries, particularly since the oil embargo of the 1970s and continuing through the Iranian hostage crisis, the first and second Gulf Wars, and the ongoing struggle against al-Qaeda. But when one compares the "evil" Arab of popular culture to real Arab people, the stereotype falls apart. In this thought-provoking book, Tim Jon Semmerling further dismantles the "evil" Arab stereotype by showing how American cultural fears, which stem from challenges to our national ideologies and myths, have driven us to create the "evil" Arab Other. Semmerling bases his argument on close readings of six films (*The Exorcist*, *Rollover*, *Black Sunday*, *Three Kings*, *Rules of Engagement*, and *South Park: Bigger, Longer Uncut*), as well as CNN's 9/11 documentary *America Remembers*. Looking at their narrative structures and visual tropes, he analyzes how the films portray Arabs as threatening to subvert American "truths" and mythic tales and how the insecurity this engenders causes Americans to project evil character and intentions on Arab peoples, landscapes, and cultures. Semmerling also demonstrates how the "evil" Arab narrative has even crept into the documentary coverage of 9/11. Overall, Semmerling's probing analysis of America's Orientalist fears exposes how the "evil" Arab of American popular film is actually an illusion that reveals more about Americans than Arabs.

About the Author
Tim Jon Semmerling is an independent scholar in the Dallas/Fort Worth area who holds a Ph.D. in Near Eastern Languages and Cultures from Indiana University. Presently, he is studying for his J.D. degree.
