Debra McBride, Scruffy Productions, David Cassady : Evolution 2: Far Off Promise: Prima's Official Strategy Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Evolution 2: Far Off Promise: Prima's Official Strategy Guide:

Rodriguez Although this strategy guide is more usefull than the one for the first game, I still don't think it's a must buy, or a buy at all! Oh sure it provides maps for the dungeons, but since the dungeons aren't random anymore it's simple enough to make maps yourself. I do find it usefull that they tell you where all the secret rooms are, but once I get the rumble pack for my controller that's not going to help much either! All this does is really tell you story ahead of time for those who have trouble playing the whole game through first, and to make cash! I personally do want to see the game make money, but not through this. I think your money is best spent somewhere else.
