Don't waste your money on this book!The description of this book says "Perfect for senior citizens and anyone with restricted vision or tired eyes."I bought this book and had it sent to my bedridden mother who has poor eyesight. This book is not usable by anyone with poor eyesight and would be challenging for anyone with normal

eyesight. Below is one of those pages that shows the word list. All of the word-list pages have the same problem. Either Puzzle Planet knew this book was defective before they sent it, OR they have absolutely no quality control. If a company wants me to function as their Quality Control Department, then they had better start paying me for the work! Now, I've got to make this complaint, request the return, get the return mailing label, forward the mailing label to my relative in another state, find a replacement book, and then pay to have the new replacement book expedited to my mother. 1 of 1 people found the following review helpful.
