Carol Vorderman : Extreme Sudoku: Over 300 Super-Challenging Puzzles with Tips Tricks before purchasing it in order to gauge whether or not it would be worth my time, and all praised Extreme Sudoku: Over 300 Super-Challenging Puzzles with Tips Tricks:

1 of 1 people found the following review helpful. Nice British Take on Challenging SudokuBy BrahmanYou're not

going to find FIENDISH Sudoku puzzles here. Worse, you're not going to find any new techniques on dealing with the deadlier forms of the puzzle. The author has written a very reader friendly book and a LOT of puzzles that will almost challenge you without really getting into the necessity of X wings or Gordonian Rectangles. Nevertheless, there's a lot the beginning Sudoku maniac will find of interest and education in this book. For a more in depth study of end of serious strategies, try the Mensa book on Sudoku by Peter Gordon or the two books by Paul Stephens. On the other hand, none of these books are as reader friendly and fun to read as those of the charming Mss Vorderman. And yes, she is a Sudoku fiend, not just a BBC celebrity who who's playing around with something she knows nothing about. Her techniques will solve about 75% of the puzzles you'll find out there.0 of 0 people found the following review helpful. Not as good as her other booksBy RitaVThis book does not have the puzzles broken down into ease of solving. Sometimes I just want to do a quick easy puzzle. Most of the puzzles are one per page until you get to the special puzzles. These are 2 per page. This I don't understand because they need more space for figuring out the puzzle but the boxes a mush smaller.I wouldn't purchase this again. I prefer The Massive Sudoku book by the same author0 of 0 people found the following review helpful. If you are into sudoku, don't miss this book ...By Eduardo GuimaraesIf you are into sudoku, don't miss this book. Its puzzles can be solved with most of the rules and tricks you get without the necessity of becoming a PHD on the subject.

Do you know and love Sudoku, the number-placing logic puzzle? Can you breeze through easy puzzles in a matter of minutes, and zip through the harder puzzles, as well? Are you looking for harder and more complex puzzles to keep your attention and take your skill to the next level? Then Extreme Sudoku is the book for you. Inside, international Sudoku expert Carol Vorderman presents 175 tricky puzzles in the classic Sudoku style, and also introduces some fun and challenging new varieties such as Squiffy Sudoku, Sudoku 16, and Killer Sudoku. Each new Sudoku game is even more involved and exciting than the last, but never fear! With Carol's easy-to-understand instructions and step-by-step explanations of each new puzzle format, you'll always succeed, even with the toughest Sudoku puzzles. Includes more than 300 puzzles.
