**Doug Walsh : Fable II Limited Edition Guide (Bradygames Limited Edition Guides)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fable II Limited Edition Guide (Bradygames Limited Edition Guides):

0 of 0 people found the following review helpful. Same guide as first one By you wish Same guide as the normal one with an extra art book... 1 of 1 people found the following review helpful. Helped improve my game By Bishop Brown Very good walk through 2 of 2 people found the following review helpful. Useless By Aaron Hammel In short, this guide does not provide enough information beyond what is already made available in-game. It really only collects all of that information and makes it available in one source. There are no suggested strategies or further explanations on the in-game information, essentially making this anything but a strategy guide. As mentioned, the art book is nice.

Except, it's assembly with the guide is oddly constructed that you'll want to separate the two to use the guide, but this will leave you with a flimsy, crushable exterior shell (with art book) and a guide that has a front and back cover with pictures and no identifiable text to the game.
