I would not recommend this to anyone who really needs helpBy ZamiziI was very disappointed in this book. for a seriously

advanced player, the tips are almost useless. there are no maps and few exact locations. the book is skinny, barely this side of a pamphlet. the black and white pics wouldnt bother me but they were too dark to get any information from. there war actually more information about gathering weapons, ammo and fusion cores from the main game than real information about the DLC.0 of 0 people found the following review helpful.
