I was hesitant to get it because of the simplistic picture on the front, but the actual puzzles are somewhat more complicated than the cover shows. 4 of 4 people found the following review helpful. Fantastic dot to do puzzles By Shasha Tiny numbers on puzzle of connect the dots up to high numbers. Motivated children could handle this challenge and make awesome pictures. The answers are in the back of the book. Very neat/fun activity for kids/young adults. Nice type of photos...good clean fun. Happiness... 1 of 1 people found the following review helpful. NOT FOR SENIOR EYES By Roberta J. Goldberg Very much liked the designs, quality of paper printed on, and especially the spiral binding; however, at age 78 I needed a magnifying glass to see the numbers (most pictures range from 250-350 dots). Using one took away most of the fun, so returned the book for credit.
