**From Reichert Verlag : Felix Mendelssohn Bartholdy: A-major Symphony op. 90 'Italian' Symphony (English and German Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Felix Mendelssohn Bartholdy: A-major Symphony op. 90 'Italian' Symphony (English and German Edition):

Felix Mendelssohn Bartholdy is known to have revised his A-major Symphony several times. This edition contains facsimile reproductions of the individual versions and fragments as well as comparative musicological commentaries.

The set consists of three parts: the complete full-score autograph of 1833, the eleven full-score autograph sheets (Oxford fragments) containing earlier versions of the 1833 autograph, and the 1834 autograph score of movements II to IV.
