**From G. Schirmer : Fifteen Two-Part Inventions for the Piano, Vol. 1512** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fifteen Two-Part Inventions for the Piano, Vol. 1512:

1 of 1 people found the following review helpful. One of the Great Ones By smokinjj These inventions serve as the building blocks for all other music. My husband has a copy of this book upstairs at his piano. My well worn copy is at my piano downstairs. The pages of my book got so worn I am buying myself a new book by the same arranger. In the past I have found it much easier to play piano when notes on the page are where you expect them to be. 0 of 0 people found the following review helpful. What can I say -- it's exactly the same as ... By customer What can I say -- it's exactly the same as the copy I used fifty years ago as a beginning piano student.
