**David Cassady : Final Fantasy VII Official Strategy Guide (Official Strategy Guides) (v. 2)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Final Fantasy VII Official Strategy Guide (Official Strategy Guides) (v. 2):

0 of 0 people found the following review helpful. Five StarsBy CustomerExcellent, I ordered for Playstation version but it still worked just as well0 of 2 people found the following review helpful. This is a book that's not detailed enough and too many errorBy A CustomerMuch of the data in tables are wrong: looks like they didn't do ANY check. Ways to get chocobos are not accurate, the greens' table is wrong, too many enemies not listed in the end of the book, and among the ones listed much of the info is wrong, and some enemy's HP are even ??? (I can easily find the number out by using Gamehack) and they're calling this "OFFICIAL GUIDE"? Com'on, give me a break. None of the info in the book cannot be obtained by playing yourself a few times, it's like writtin just by someone who played the game, without ANY info from Squaresoft's game creators. When I compare this book to some good FF7 sites in the Internet, I found that I can really get more info on the game. The only good thing about this book is that IT'S A BOOK and it's

easier to read than printed paper and has graphics, however, everything is black and white except the few maps section at the end of the book. 0 of 1 people found the following review helpful. Solid Usable Guide By James Gray I have been a big FFVII fan for some time now. I have owned this guide, the Bradygames PS guide, and the Versus guide. I would have to say the Versus guide is the best of all three, and the other two are a tie. They're essentially the same guide in a different package. I quite like how this one is a bit more compact. Although it is thicker, it is also shorter and narrower than the Bradygames PS guide. The guide is printed in black and white on non gloss paper, with a full color map section on gloss paper in the back. I find the black and white matte easier to read, so I can get more focused on the material. I think the best option is to have all 3 guides nearby to reference and get the most of the game.

BradyGAMES Final Fantasy VII Official Strategy Guide Features: Over 350 full-color maps, a complete walkthrough of the game, complete bestiary, powerful materia combinations, all hidden areas revealed, complete list enemy skills, plus much more! The most anticipated sequel ever, sets standards for the RPG genre with its intense gameplay and fantastic graphics. The game's plot is deep and typical of Square's prior efforts. The game uses a number of flashback sequences, lots of rendered sequences which add greatly to the mood and emotion of the story.

.com Final Fantasy VII, one of the most impressive and popular video games in recent memory, has finally made its way to the PC, care of Eidos. The game is not like your average PC role-playing game, however, and BradyGames's book, Final Fantasy VII Official Strategy Guide can help you master Final Fantasy VII's complex style and story line. The book starts off with a three-page bulleted list of general tips on weapons, Materia, battles, and other basic gameplay elements. A thorough description of each character follows, complete with a list of special attacks for each. Before moving on to the specific level walk-throughs, the book also provides an explanation of Materia and how to use it effectively, along with a discussion of Chocobos--what they are, where to find them, how to catch them, and where you can race them. The walk-throughs themselves are very detailed, with step-by-step instructions for each encounter. These include strategies for tackling the game's many boss enemies. The latter half of the book consists mostly of graphical appendices. These list and describe every type of weapon, armor, enemy skill, and Materia available in the game. A complete bestiary follows, along with a series of full-color level maps, which are made up of screen shots from the game. Basically, this book is your sure-fire survival guide to the world of Final Fantasy VII. If you're planning to lead Cloud Strife and his pals through to the final conflict, you'll want to have this guide handy. -- Michael Ryan From the Back Cover BradyGAMES Final Fantasy VII Official Strategy Guide Features: Over 350 full-color maps, a complete walkthrough of the game, complete bestiary, powerful materia combinations, all hidden areas revealed, complete list enemy skills, plus much more!
