Last year I was feeling sentimental and found and ordered the ones I had, and had a blast going through them again. The pictures all have cute, funny details that I delighted in as a child. If you have a 3-6 year old in your life, I think they would really enjoy these. I know I did.0 of 0 people found the following review helpful. Great Interactive Children's Christmas BookBy KickinitI remember these books from when I was a kid and used to get out these books every Christmas and look through them. Always loved them and used them year after year, got me in the Christmas spirit and ended up getting some of these for my nieces to enjoy!0 of 1 people found the following review helpful. Terrible! So disappointingBy Grace GeseTerrible! So disappointing. Being "used" I expected a little wear around the edges, maybe a bent page or two, but every page had all the answers circled! Even as a kid I knew that ruined all the fun :(
