Buyer Beware-Not as it appears!By EmilyI was so excited to finally find Bach's "O Sacred Head Now Wounded" written for fingerstyle guitar that I did not pay close attention to the "Just So You Know"... note on the "Look Inside" page. The table of contents that you are seeing is from an earlier edition and not from the actual book that you will receive. For one, "O Sacred Head Now Wounded" is not in the book that I received. Since that was the only reason I was purchasing the book, of course I am disappointed, but I can't say I wasn't warned. I have not taken the time to compare and see what other songs may be missing or replaced. Just thought I would give others a warning so the same thing doesn't happen to them.0 of 0 people found the following review helpful. Bach Made Easy for the GuitarBy Roy MisI liked that this book offered both chords and tabs. I haven't

read music in many years, but I can handle the tabs and I can actually play some Bach. But it!0 of 0 people found the following review helpful. Five StarsBy Larry DaltonExcellent

(Guitar Solo). The arrangements in this book are carefully written for intermediate-level guitarists. Each solo combines melody and harmony in one superb fingerpicking arrangement. 14 masterpieces from J.S. Bach: Air on the G String * Bourree in E Minor * Jesu, Joy of Man's Desiring * Little Prelude No. 2 in C Major * Minuet in G * The book also includes an easy introduction to basic fingerstyle guitar.
