I don't know all of these songs but there are a lot of them that I do know and this book allows you to sound like you know what your doing. this is not a necessarily solo guitar book, but

a sound like the record type book so most song work out pretty much like the record but not always with the melody being played or any of the solos. this book will keep you busy for quite a while. 2 of 2 people found the following review helpful. Delightful collection of old and new, popular and eclectic By Christian Messerschmidt This is a delightful collection of old and new, popular and eclectic tunes. It is in the "cheat sheet" format, ie very accessible but at the same time pretty accurately transcribed. There are some advanced songs included that go well beyond the "first 50" fingerpicking tunes a players might attempt, very worthwhile to spend the effort, though. 0 of 0 people found the following review helpful.
