Helen Bryant : Fixin' To Be Texan before purchasing it in order to gage whether or not it would be worth my time, and all praised Fixin' To Be Texan:

0 of 0 people found the following review helpful. Texas is truly eclectic!By W BrauneMy 84 yr old Texan mother loves the Texas info in this book. Most of all she lived a bunch of it!0 of 0 people found the following review helpful. Five StarsBy Roy A Adamsfunny8 of 8 people found the following review helpful. Highly recommendedBy D. S.I bought this book for my mom, a proud Texan who hasn't lived there since shortly after she got married, some 50 years

ago. But she related to everything in this book and laughed so hard she couldn't talk. Over the years, I've bought my fussy mom countless presents, but this is the first one I felt she really liked. Even as a non-Texan, I found the book to be hilarious (my mom called me up and read the whole thing to me over a few nights). I don't even like Texas (too hot and buggy for my taste), but after hearing this book, it kind of made me want to move there! This would be a GREAT present (or gift to yourself) for anyone who loves Texas, anyone from Texas, and anyone about to move there (fixin' to be Texan).

You don't just move here and immediately become a Texan; it takes training. This delightfully witty book takes you through the process of understanding our conversation, why and how we dress the way we do, why pickups are a fact of life, and how you can acquire the necessary big hair. Fixin' to Be Texan pokes gentle fun at the Texas mystique. Residents of the state will get a big kick out of Bryant's clever way of identifying our predominant characteristics. Newcomers will use it as a tool for understanding the wonderful and sometimes incomprehensible behavior of our fine native population.
