Valuable Reference, Useful Performance SourceBy CustomerIt is a giant step beyond the Riemenschneider because it corrects some mistakes, adds further chorales and includes both the original German texts, and their most classic English translations. Significant reference copy for one's lifetime personal library, but also a fine source of short preludes and interludes for service playing.0 of 0 people found the following review helpful. Fantastic resource, and much better than many othersBy Smokey FairwayFantastic resource, and much better than many others. My only complaint is the size compared to the binding... I wasn't able to keep the book open without basically breaking the binding, so I decided to get it comb-bound.0 of 0 people found the following review helpful. Great practice musicBy tapdanceThe only thing I don't like is the binding. The pages don't stay open without harming the binding. I enjoy Bach's chorals. Good for practice.
