Professor Louise M Benjamin : Freedom of the Air and the Public Interest: First Amendment Rights in Broadcasting to 1935 before purchasing it in order to gage whether or not it would be worth my time, and all praised Freedom of the Air and the Public Interest: First Amendment Rights in Broadcasting to 1935:

A unique and definitive study of freedom of expression rights in electronic media from the 1920s through the mid-

1930s, Louise M. Benjamins Freedom of the Air and the Public Interest: First Amendment Rights in Broadcasting to 1935 examines the evolution of free speech rights in early radio.

Benjamin provides a concise, thorough, and neutrally stanced history of the development of commercial radio broadcasting, with a special emphasis on the legislative history and some discussion of the legal history as well. I see this document as primarily a historical chroniclea retelling in one place of a complex story. Warren Sandmann, Mankato State University
