**Denes Agay : From Bach to Bartok: Original Pieces by the Masters Vol.. B** before purchasing it in order to gage whether or not it would be worth my time, and all praised From Bach to Bartok: Original Pieces by the Masters Vol.. B:

2 of 2 people found the following review helpful. It's what the professionals recommendBy Why NotThis series is recommended by my child's piano teacher who is a conservatory-trained professional with over 40 years of experience. She thinks very highly of it!4 of 4 people found the following review helpful. This learning series is overlooked!By Danny PI have this volume and volume 3 of the Bach to Bartok. I wonder why such a wonderful instructional tool is so overlooked nowadays. These books were published back in the 70's but are still relevant to students learning the classical style today. I highly recommend these books if you are self teaching because of their progressive nature. New techniques are introduced throughout the series and songs get more challenging. You can take

these up to the intermediate level! The only book I don't have is volume 1. I was past that level before I discovered this series, but I am sure it has merit. These are cheap! Buy them before they become unavailable forever!

Waltz \* Musette \* Carnival \* Air \* March \* Angloise \* Italian Song \* On the Swing \* Three Country Dances and more.
