Yes, they are schlocky and silly and not really scary by todays standards, but they are a piece of film history for anyone who is a horror movie buff. I was so happy to find this book after reading Castle's autobiography (well worth reading if you haven't already). So glad this kind of thing is available for those of us who like to collect movie memorabilia.0 of 1 people found the following review helpful. "House on Haunted: A William Castle Annotated Screamply is the never-before-seen working script from William Castles archives and is a Living Screenplay(TM). "House on Haunted Hill" (written by Robb White) is a renowned work of producer and director William Castle, beloved for his signature-style fright-filled films and delivering the gimmick to the horror genre. "House on Haunted Hill" stars the inimitable Vincent Price and Emergo the skeleton who famously flew through theaters and taunted live audiences."House on Haunted Hill: A William Castle Annotated Screamply" features original script formatting, maintaining the integrity of the authentic screenplay replete with Castles hand-written notes and actual leather-bound style of design that he used for every movie he made. William Castle Productions is offering this book complete with Emergo, simply sift through the pages back to front and scare yourself silly. The William Castle Annotated Screamply for House on Haunted Hill includes a foreword by prolific director Joe Dante (Gremlins, The Howling). Dante calls House on Haunted Hill an artifact worth having and a seminal 1950s picture. It also includes an introduction by William Castles daughter, Terry Castle, who shares a personal perspective on this seminal piece of film history. And a historical perspective of the film by writer and illustrator Charlie Largent.

About the AuthorAmerica's "Master of the Macabre" is at it again. Remember the Lloyds of London life insurance policy that protected moviegoers if they were frightened to death by "Macabre"? Or the theatre seats that buzzed when "The Tinger" came on screen...and the refund for cowards who could not face the last terrifying minutes of "Homicidal"? Bill Castle loved scaring the pants off America...especially with his most famous hit, "Rosemary's Baby." Castle has always sought and found the thrill of thrilling--a mark of successful showmanship. And he's at it again, with his greatest gimmick of all time....he's back "from the grave." You can read all about it in his new novel "FROM THE GRAVE: The Prayer". No William Castle collection would be complete without a copy of William Castle's Living Screenplay (TM) from "House on Haunted Hill." Follow him daily at www.williamcastle.com.
