John Bishop : How Did All This Happen? before purchasing it in order to gage whether or not it would be worth my time, and all praised How Did All This Happen?:

With a good job in sales and marketing and a nice house in Manchester that he shared with his wife and kids, John Bishop began to take stock of his life as he faced up to the big '4-0'. But instead of spanking a load of cash on a car

that would have made him look like a senior stylist at Vidal Sassoon, he stumbled onto a pathway that ultimately lead him to become one of the nation's best loved comedians. This book explains how John went from dreaming of ousting Kenny Dalglish from the number seven Liverpool shirt, and instead became one of Britain's top TV funnymen.
