he was so happy. The book contains some good information and some funny "crap" too! 0 of 1 people found the following review helpful. Crappy Unfunny Book By Colin Bayler This book sounds like a risqué "funny" tome. NOT! It is the stupidest piece of tongue in cheek humor I have ever tried to read. Only got through a short amount before I gave up and threw it away. I would have flushed it down the toilet if I could. If you find slipping your pants off and scooting back over the rear seat of a tandem bike and taking a dump, then this book is for you. The quality of the book and graphics were fine. It just needed professional humor instead of the childish adolescent crap that tried to pass for funny. 2 of 3 people found the following review helpful. poop By Customer this is just funny... for anyone who has ever been in a situation when you want to poo but can't (regardless of first dates or new situations) this book makes your desperate efforts seem justified!! excellent!
