The jokes on the inside are cheesy and not clever at all. The lists couldn't be more lame - one list was how to appear smart, which included wearing glasses

far down your nose. But it beats a lot of raunchy humor books out there, which are usually just gross and not funny (and not appropriate for giving to some family and friends). What a hoot!By ZippyBen Goode's writing is for the masses (i.e. anybody).I gave this little book to my brother (We're both in our 50's and both always vying for family comedian). He said...This is the funniest stuff I ever read.What I also like is that this book is clean, unlike a bunch of Hollywood junk that passes for comedy these days.This book is fun! Enjoy!
