Helen Nash, Dorothy Masterson : Humorous Cryptograms before purchasing it in order to gauge whether or not it would be worth my time, and all praised Humorous Cryptograms:

0 of 0 people found the following review helpful. Attention Cryptogram Lovers By Marlene W. I bought this cryptogram book for my husband. He previously had a book of cryptograms by Helen Nash that was given to him at Christmas. After finishing the first one, he was looking for another one by the same author. He particularly likes this book because of the humorous sayings that are included, and the size of the book is such that he can take it everywhere

when he anticipates a long wait for an appointment - it is the perfect size to carry in his portfolio or even in his jacket pocket. 0 of 0 people found the following review helpful. okBy cheluzalPROS-lots of them-hints; two letter hints evenCONS-too small (a common problem in these books, oddly)-hint errors, seriously?! 1 of 1 people found the following review helpful. This is actually a fun little bookBy Brenda YoungThis is actually a fun little book, but I will never again purchase a puzzle book without a spiral binding. Why in the world do publishers not do this automatically?? Obviously none of them do puzzle books or they would. I like taking my books to places where I have to sit and wait, ie doctor offices, etc., and to have them constantly flip around in your lap when you're trying to write is more annoying than the wait for the doctor, grrr. I would pay more for the spiral binding, if that is the issue. Take note, publishers!!

"A collection of 400 witty or humorous quotations along with their authors' names...have been enciphered into simple substitution ciphers with retained word divisions. Authors include Groucho Marx, Andy Rooney, Bill Cosby, David Letterman, Bob Hope, Emma Bombeck and many more....Excellent and...fun."--Cryptologia. If stuck, get help from special clue sections. 128 pages, 5 3/8 x 8 1/4.
