Joel Horwood : I Caught Crabs in Walberswick before purchasing it in order to gage whether or not it would be worth my time, and all praised I Caught Crabs in Walberswick:

A fast-moving, exhilarating play about teenage hopes, dreams and frustrations in a rural part of England.Wheeler is a high-flying comprehensive kid destined for university, while football-mad Fitz is struggling to cope with his

dysfunctional father and his schoolwork. They live in Walberswick, a sleepy Suffolk village known for hosting the British Open Crabbing Championship. Set on a sweltering summer's day on the eve of their last GCSE exam, they are ambushed by Dani, the fittest (and poshest) girl on the beach. So begins a crazy twenty-four hours that will change the lives of the three sixteen-year-olds for ever.

Sharp as a pin - impressive in its ability to get inside the heads of the teenagers [The Independent](#)
