I felt like I was in the mind of Anna and the way she describes things with openness and doesn't hold back kept my attention. I laughed quite a bit and would highly recommend reading it!I hope she continues to write in the future!1 of 1 people found the following review helpful. I even feel better about myself and

I just want to make you laughBy Peter JonesThis is an awful book, the lines are so corny and gut wrenching bad, I have never given such a destructive review before. The one star for the cover.

I have written this book to make you laugh, to escape your reality and enter mine. My topics range from wine to my mother all the way to the ladies restroom. I hope you laugh at least once. So sit back enjoy my first book-- unless you have some math homework you need to get done!
