Liked the one about women betterBy patriciaFunny, but no nearly as funny as the "I Love Her, But..." counterpart. Maybe the men would like this one more and because I am a woman, I found the Her book funnier.3 of 3 people found the following review helpful. Good Stuff!By Elizabeth BehringWhen this book first came out, my mother and I were standing in a very busy Books-A-Million check out line. I grabbed it and sort of flipped through it, then started laughing so much she grabbed another copy. She insisted on buying this book, which I managed to keep in my room until I moved out and she caught me! :) I am not married but I find these anecdotes hilarious! Each one makes me laugh. It's one of those rare books you actually want to read over and over again and you never get sick of it! I only own about 3 of these books, sad to say. I don't dare show it to my boyfriend since he won't see the humor, but I highly recommend this to any female who HAS a sense of humor.BUY IT! You will not regret it!!:)
