George Lucas : Illustrated Screenplay: Star Wars: Episode 6: Return of the Jedi before purchasing it in order to gauge whether or not it would be worth my time, and all praised Illustrated Screenplay: Star Wars: Episode 6: Return of the Jedi:

1 of 1 people found the following review helpful. Small but powerfullBy E. SteinEven though I didn't expect the paperback was half-size, It fully completes the screenplay. And with the original storyboard illustrations you can enjoy reading it even if you are not a Star Wars maniac.So you see, size matters not. Hm? A must have for fans.1 of 2 people found the following review helpful. Return of The Jedi ScreenplayBy A CustomerThis is one great book. For those of

you who love Star Wars, this should be added to your collection. Instead of reading about the story, you read the script. It's not all the same, some sentences are longer or shorter, but that doesn't matter. Includes cool illustrations too. I rate it a 5!4 of 7 people found the following review helpful. I thought that it was the second best book I ever readBy A CustomerI have read it many times, it is a very good book.I think it is the best of all the "STAR WARS" books(besides Slave Ship)

A LONG TIME AGO IN A GALAXY FAR, FAR AWAY. . . ."Luke Skywalker has returned to his home planet of Tatooine in an attempt to rescue his friend Han Solo . . . Little does Luke know that the GALACTIC EMPIRE has secretly begun construction on a new armored space station even more powerful than the first dreaded Death Star."INTERIOR: YODA'S HOUSEHe beckons the young Jedi closer to him. YODA: Luke . . . Do not underestimate the powers of the Emperor, or suffer your father's fate, you will. Luke, when gone am I, the last of the Jedi will you be. Luke, the Force runs strong in your family. Pass on what you have learned. Luke . . . There is . . . another . . . Sky . . . Sky . . . walker.*****Even the best actors, the most talented director, and the most amazing special effects can't make a great movie without a superb story to build on. Now here is the complete screenplay of Star Wars: Return of the Jedi--the climactic final installment in the legendary Star Wars Trilogy.The adventure reaches a fever pitch with Luke Skywalker's confrontation with monstrous gangster Jabba the Hutt, and the daring rescue of Han Solo and Princess Leia . . . The breathtaking high-speed battle in the Forest of Endor . . . The heartbreaking death of beloved Jedi Master Yoda . . . And Luke's powerful final face-off with Darth Vader and the evil Emperor himself.Fully illustrated with original storyboard art--and featuring an introduction especially written for this edition by producer Howard Kazanjian--this definitive volume is a must for every Star Wars library.

From School Library JournalYA-Introductions to both of the screenplays provide some historical background and thoughts about the movie trilogy from the perspectives of people who were involved with the first release of the films. Changes in technology are noted, as is how these advances might effect scenes if shot now. The scripts are accompanied by small black-and-white drawings of action scenes, include action direction, and feature far less text than the Star Wars novels that are so popular. They should appeal to reluctant readers who may then feel the force and want to read the more substantial novels. Avid Star Wars aficionados will enjoy perusing the screenplays for details and lines, as well as directional inserts.Pam Johnson, Fairfax County Public Library, VACopyright 1998 Reed Business Information, Inc.
