Great sound quality and content!By Sally GI am enjoying this collection of interview clips of Paul McCartney from BBC radio and tv archives (2+ hours long). Most of all, I am impressed by the sound quality. I have a lot of this kind of material and most of it is of poor sound quality. I also like that most of the segments are fairly long compared to the little sound bites you usually get. For each segment, they tell you the show it is from and the date. The questions are interesting and mostly intelligent, and Paul seems relaxed with the interviewers and forthcoming with his answers. A nice glimpse into Paul in his own words. My only comment (not really a complaint) . . . I would like to have heard more from Paul during the Beatles or early Wings periods, even repeats of some of the more well-known interviews . . . I'd love to see them do a follow-up volume with more of those earlier eras. But, all in all, I am really enjoying listening to Paul speak.5 of 5 people found the following review helpful. One of the MastersBy CustomerIt was pointed out to me by someone in my carpool, that this would only be interesting to a Beatles fan.Truth is; if you are a fan of pop music at all, one must appreciate the monster contribution this man has made to modern day music. The interviews are interesting, and Paul actually proves to be a bit of a goofball and a very human guy.This is just one of those instances where someone is blessed with a certain genius, and proceeds to affect the world around him.Funny and honest.I enjoyed it.3 of 3 people found the following review helpful. Hear Paul Tell it AllBy Walter T. Dickson Jr.I had heard of this 2 Disc set about 3 months ago, and took my

time trying to find it. But once I had it in my collection, I was amazed at the interviews I found inside. Paul talks of forming Wings, his vast Solo Career, and other personal matters between him and the other members of that other band he was in, uh...oh, yeah, The Beatles! It's a great listen as Paul just lays it all out on the line. I don't want to spoil anything, if you want to find out, order this disc. You will not be disappointed.

In interviews ranging from 1968 to 2009, Paul McCartney talks about touring the UK with Wings (which was then a new band), a mid70s offer to reform the Beatles, the early days of the Beatles, and their final breakup. He also discusses his solo albums, receiving the freedom of the City of Liverpool, Christmas with his family, his love of music, and his career since the breakup of the Beatles up to 2009.
