Geoff King : Indie 2.0: Change and Continuity in Contemporary American Indie Film before purchasing it in order to gage whether or not it would be worth my time, and all praised Indie 2.0: Change and Continuity in Contemporary American Indie Film:

Following the American indie cinema boom of the 1990s and the creation of "specialty" divisions by several Hollywood studios, many predicted an end to both the indie sector's viability and the making of films with ambitions beyond the commercial mainstream. Yet, as Geoff King demonstrates, plenty of distinct indie productions continue to thrive, even in the face of difficult economic circumstances. Recasting the term "indie" to denote a particular form of independent feature production that has risen to prominence in the twenty-first century, King identifies and discusses the new opportunities available to indie filmmakers. These new options and techniques include low-cost digital video and a range of Internet and social-media ventures providing funding, distribution, promotion, and sales. He also covers the ultra-low-budget "mumblecore" movement; the social realism of such filmmakers as Kelly Reichardt and Ramin Bahrani; the "digital desktop" aesthetics of Jonathan Caouette's *Tarnation* (2003) and Arin Crumley and Susan Buice's *Four Eyed Monsters* (2005); and the affect of certain dominant discourses, such as the articulation of notions of "true" indie film and its opposition to what some see as the quirky contrivances of crossover hits such as *Little Miss Sunshine* (2006) and *Juno* (2007). King ultimately locates a strong vein of continuity in indie practice, both industrially and in the textual qualities that define individual features.

Among several excellent recent books on US indie cinema... King's is the most wideranging and illuminating... Highly recommended.
