This is one of those books that anyone who loves the Internet, would love to read. --Digi Tall MediaAbout the AuthorElga Haymon White must have been born with royal blue ink in her veins and a writing quill in her hand. From a small child, she wrote interesting short stories and lovely poems. She had written over 100 poems before anyone knew she was writing. Her inspirational poetry and prose tell beautiful stories. Elga continues her love of writing during her retirement years. Besides her poetry, she writes stories for children, teens and youth. Her stories for teens and youth, while not written as truly love or romance stories, portray pure, sweet, innocent love. Others instill within the heart the true meaning of life and the joy of living it to its fullest.
