"Introducing Philosophy Through Film is a truly wonderful introduction to the core problems of philosophy. Its combination of great films, classic articles from both historical and contemporary philosophers, wonderfully clear introductions to each section, and provocative questions for discussion make for an introduction that is as compelling as it is rigorous." -Richard Foley, New York University "Fumerton and Jeske have compiled an excellent anthology, filled with dozens of classic texts on the central problems of philosophy most often addressed in introductory philosophy courses. And the films they suggest will help introduce students to philosophy in the most enjoyable way possible." -Michael Huemer, University of Colorado
