stories this one does not disappoint the reader. Some of the events in this book are known to a wide range of public, but some are "ah-ha" moments fun to learn. Everyone thinks of Hollywood as "Wonderland" and these stories let us know the humanity of its population and the strange/fun/seedy things that happen when egos grow beyond their intended bounds. This will show evidence of genius being outrageous and life trying to be bigger than life...with not so surprising outcomes. A good read.0 of 0 people found the following review helpful. A Fascinating Happening In HollywoodBy BarryH. WileyAn excellent collection of well-told stories from the remarkable history of the movie industry. A second collection would be of interest.0 of 0 people found the following review helpful. Four StarsBy michel a cukiermanVery informative and in depth
