This is one of the most complete sources of 007 information I've found in print, including many surprises. Each topic is covered comprehensively and insightfully. There's the actors who have played Bond, the villains, the girls, the technology, the films, the music--plus unofficial projects, the lesser known people behind the films and many other tasty bits of information. I read this book cover to cover the first time through and now I just like to pick it up and open it to any page to read a few pages just for pleasure. 0 of 0 people found the following review helpful. Good book for the money - a lot of facts and information By Daddio Good book for Bond fans. There are other books that go into a lot more detail, especially regarding the making of the movies. But if you want facts about the characters, music, movie plots, etc. this is a good choice. I wasn't disappointed. 0 of 0 people found the following review helpful.
