Larry Clark, Harmony Korine : Kids before purchasing it in order to gage whether or not it would be worth my time, and all praised Kids:

1 of 1 people found the following review helpful. A must have!By Stefan IsbrechtIt's a must for everyone who grew up with that movie. New York, this era, the KIDS... awesome analog pictures and script.5 of 6 people found the following review helpful. The truth exposedBy A CustomerWhen a book or a movie can both be as true as the world that we live in, than you know that it has succeeded. Such is the case with KIDS. As a teenager growing up in the rural life, you don't see very many pieces of art that reflect upon what truly is happening in society with the younger generations. While critics might say that it is too "touchy" or "sick", they don't realize that this is what is really happening in America today and must either deal with it, orchange their opinion on it because what they call this movie or book, is what they call American teenage society.4 of 4 people found the following review helpful. If you liked the movie, You will love the book.By A CustomerWhen I saw "Kids", it really hit home. About a year later, I was clawing my way around a library, and I found the book, "Kids". I looked at work inside there, and it was great. Unlike most books made from movies, you HAVE to have seen the film to enjoy the book, because the book is the screenplay. I couldn't get enough of it. It was wonderful. I think it's a great piece of art.

It's the "great American teenage movie" about real kids, quoted by Amy Taubin of "The Village Voice" as a "masterpiece" and "the kind of film that pulls the ground out from under you".
