Inside of each day, I have stapled a paper that has my list of THINGS TO DO that day. So now, each morning I get up, open the folder, and look at the routine things that I need to do that day. It has really helped me to remember to do everyday things that I tend to get behind on, due to immediate things taking precedence. It is easy to get sidetracked and behind on things, but having a daily checklist to use really helps. I also put other things in the folder that are new, to do's, for that week. Even articles to read. I have a separate folder for bills to pay that I keep with these.0 of 0 people found the following review helpful.
