I wanted call the company and say, "SERIOUSLY"? I have purchased other tablets like this photo showed with lists, funny words and sayings and they were larger. I saw these and new I had to get it for my sister, who uses the word often. She liked them when I gave them to her, but I told her as usual, this visual woman was way off for her expectations of this pad. They still made her laugh and then we both said the word all day long. I would purchase them again. I don't blame the seller for my not doing my job that includes finding the size of the item, but the price could have been small just like the note pad.0 of 0 people found the following review helpful. Cute, but small.By kterboThis is the size of post it notes, I had thought they were a bit larger. bummer, a bit.
