David William Foster : Latin American Documentary Filmmaking: Major Works before purchasing it in order to gauge whether or not it would be worth my time, and all praised Latin American Documentary Filmmaking: Major Works:

0 of 0 people found the following review helpful. Bravo! An impressive life story, I am proud to be a fellow Mexican-American. By Eugenia M. Mendez After reading about his fascinating life, I rushed to my computer to congratulate the author. I was saddened to read that he had died in 2010. His story, was very impressive but not unique. There are quite a few Mexican-Americans, children of Mexican born parents who have overcome prejudice and gone on to have

successful careers. What I love about Ramon Eduardo Ruiz Urueta is that he chose the intellectual path and traversed both Mexico and the U.S. in the pursuit of his research trying to get to the reason behind what makes each of us who we are. I am with you Ramon, we have to be proud of who we are and where we came from. Without that, we are nothing!

Latin American Documentary Filmmaking is the first volume written in English to explore Latin American documentary filmmaking with extensive and intelligent analysis. David William Foster, the leading authority on Latin American urban cultural production, provides rich, new interpretations on the production of gender, political persecution, historical conflicts, and exclusion from the mainstream in many of Latin Americas most important documentary films. Foster provides a series of detailed examinations of major texts of Latin American filmmaking, discussing their textual production and processes of meaning. His analysis delves deeply into the world of Latin American film and brings forth a discourse of structure that has previously been absent from the fields of filmmaking and Latin American studies. This volume provides perspective on diverse and methodological approaches, pulling from a wide scope of cinematic traditions. Using his own critical readings and research, Foster presents his findings in terms that are accessible to non-Spanish speakers and Latin American film enthusiasts. A much-needed contribution to the field of Latin American documentary film, Fosters research and perspective will be a valuable source for those interested in film studies, gender studies, and culture.

Fosters illuminating and sensitive analysis of Latin American documentary films is clearly based on extensive reading and a solid critical base. It stages the workings of a sharp, critical mind, thoroughly familiar with the critical debates on Latin American film and culture.
