I wasn't aware of how nice it was until one of my students who is playing the piece brought it to her lesson. I liked it enough to get my own copy. I highly recommend it. I teach piano at a university. 0 of 0 people found the following review helpful. Five Stars By Joseph J.

Based on the autograph manuscript and the composer's personal copy of the first printed edition, editor Thomas Lab has produced a new critical edition of Robert Schumann's Piano Concerto in A Minor, Op. 54. Lab has included extensive historical background, helpful performance suggestions, expert fingering and a new orchestral reduction for second piano, making this among the most comprehensive editions available of Schumann's only published piano concerto. The comb binding creates a lay-flat book that is perfect for study and performance.
