Mike Ward : Scratch Solve Hangman #3 (Scratch Solve Series) (No. 3) before purchasing it in order to gage whether or not it would be worth my time, and all praised Scratch Solve Hangman #3 (Scratch Solve Series) (No. 3):

0 of 0 people found the following review helpful. Super Cool Stocking StufferBy Justa ConsumerThis is a really neat little book for a kid that's starting to play with letters. I would recommend this for a child that is reading, to expand their vocabulary and get more confident working with letters. I started out working the first few with my 7 year old, and then he was able to pick it up and work independently.0 of 0 people found the following review helpful. Scratch Solve Hangman BookBy Clifton M. BickhamThese books are overpriced at the store, in my opinion. It's nice to find a bargain price. Was well satisfied with price service from this seller.0 of 0 people found the following review helpful. What Fun!By Janet BoyerYou're probably familiar with the game Hangman, but just in case you aren't, here's how it

works with two people: an individual comes up with a word or phrase while the other must guess it. At the bottom of the page are blanks representing letters. As the player guesses the letters, they are written in the appropriate spot. However, if a wrong letter is guessed, a body part is drawn on the gallows. If an entire body is drawn before the phrase is guessed, the one doing the guessing loses. In his clever *Scratch Solve Hangman*, Mike Ward offers a neat twist on an old favorite. You know how instant lottery cards require you to scratch off the metallic finish to reveal what's underneath? That's exactly the way this book works. For each of the 96 puzzles, there are three components: *Silver eggs for A through Z* A dotted-line stick figure on the gallows *Numbered blanks at the bottom

Here's an example of how a puzzle works. For puzzle one in the *Scratch Solve Hangman #3*, I guess the letter "E". When I scratch off the silver egg under "E", it shows the numbers 6 and 8. I go to the bottom of the page and fill in the letter "E" for blanks 6 and 8. I then guess "R", which revealed a stick figure sticking his tongue out! This means that the letter "R" is NOT a part of solution. If I had revealed six of those faces--which indicates drawing in the head, arms, torso and feet of the body on the gallows--then I would have lost! However, because I guessed the phrase (poached eggs) before I drew all six body parts, I win! (Admittedly, I had the head and both arms drawn in before I guessed it! Whew!) This little book is very portable, providing amusement and distraction just about anywhere. Highly recommended if you love Hangman!

Hangman's a great way for kids to practice and improve their spelling. Now they can play even when there's no opponent around. It works much like a lottery: Each page features one puzzle and each puzzle has the 26 letters of the alphabet accompanied by silver circles to scratch off. Choose a letter, give it a rub and see if it's in the puzzle and where. But watch out: six misses at uncovering words like 'peanut butter' and 'alligator' and your hanged!
