**Frank Longo : Second-Degree Brown Belt Sudoku (Martial Arts Puzzles Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Second-Degree Brown Belt Sudoku (Martial Arts Puzzles Series):

2 of 2 people found the following review helpful. Perfect difficulty. Requires advanced techniques but no guess-work required. Paper quality is good for these types of puzzles. By TriGuyGreat book that makes you really work at figuring the puzzles out. There is no guessing required, like there is on most of his Black Belt books where you have to "guess"

ahead 4 to 20 steps. These can be solved with a few advanced techniques and some time. I enjoy using this book most of the time and then will jump over to a Black Belt book every once in a while for a change-of-pace. If you are looking for a hard-to-solve Sudoku book that requires persistence but doesn't require guessing, then I would suggest giving it a try. One thing I forgot to add is that the paper quality is great for erasing. Is good paper, not the newsprint-type of paper that eventually tears if you erase it a couple of times. 0 of 0 people found the following review helpful. Great book! By Judik425 Wow! Hard puzzles.... I'll be working this one for a loooooong time! 0 of 0 people found the following review helpful. Two Stars By Jim AI found some of the puzzles almost impossible to do.

With a separate sudoku book for every level, this work helps puzzle lovers play this popular game. Taking a page from karate - another Japanese art, each title is graded by colour: White Belt for easy, Green Belt for medium level, Brown Belt for hard, and Black Belt for the super-tough solvers. Each book includes 300 puzzles.
