From Belwin Music : Selected Sonatas, Vol 1 (Belwin Edition: Piano Masters Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Selected Sonatas, Vol 1 (Belwin Edition: Piano Masters Series):

1 of 1 people found the following review helpful. I like that the print is a little larger than most By swerblin I bought this book solely to use for the first work in there, the Sonata in C K. 95. I like that the print is a little larger than most, and I like that the publisher uses repeat signs instead of writing out repeated sections. But, I was disappointed to see that there are actually a few wrong notes printed in this edition. I think if I had the opportunity I would buy a different edition.

Volume I contains eight sonatas, a composer biography, and useful written-out ornaments, all helpful to students. Included are some of the more often taught and performed of the Scarlatti sonatas such as Sonata in C Major. All newly engraved and at a great price.
