All the Schumann you will ever need By heavyclassical I am a professional collaborative pianist, and I like to buy vocal music so I can play the accompaniments in the original key, for my own personal enjoyment. The pieces in this book are in the correct, original keys, and because the edition contains most all of Schumann's well-known vocal pieces, it is a great resource for any accompanist or vocalist to have. 0 of 0 people found the following review helpful. It's a good edition By Customer This is a good collection of Schumann's songs. I sing a lot of his works so this is very handy to have.

An authoritative compilation of more than 100 of the great composer's Lieder, this volume features well-beloved melodies set to the poetry of Heine, Goethe, Burns, Byron, and others. Reprinted from the Breitkopf and Hrtel edition edited by Clara Schumann, it includes new translations of lyrics and a glossary of German musical terms.
