Next my nephew did one and two words were missing from the list to put in the puzzle which he figured out quickly because there were two rows for 10 letter words and no 10 letter words. Then my sister did one not knowing about the possibility of missing words and kept having problems. Then she checked the answers and there were also missing words. I don't know how a book gets published that isn't even checked for mistakes. For a senior it could be very frustrating trying to do the puzzles if they aren't even done properly. I find this very disappointing.1 of 1 people found the following review helpful. Five StarsBy Angel terryBought for my father..
