Doug Stoffel : Seventh-Grade Math Minutes: One Hundred Minutes to Better Basic Skills before purchasing it in order to gage whether or not it would be worth my time, and all praised Seventh-Grade Math Minutes: One Hundred Minutes to Better Basic Skills:

0 of 0 people found the following review helpful. Overall, a good review for 5th or 6th gradeBy KFMI bought this for my 12 year old son to work on during the summer. It's fine for keeping kids brushed up on math skills. We are about halfway through now and found about 3 problems that are vague, have more than one possible answer, or give an incorrect answer in the answer key. But overall, it's a good review; it could even be a review for younger grades, as some of the problems are too easy.2 of 2 people found the following review helpful. Good Daily PracticeBy KKGGood daily review for my math challenged son. The diversity of problems is great since my son has difficulty switching

mental gears to problem solve1 of 1 people found the following review helpful. Great for quick summer math practiceBy Cascade book loverBought this for my daughter the summer between 6th and 7th grade. She's in advanced math so is about a year ahead. Perfect for reviewing skills over the summer without having to spend much time doing it.

One Hundred Minutes to Better Basic Skills Help middle-grade students master essential math skills with the motivating, classroom-tested Math Minutes format featured in these two new books. Each book provides 100 Minutes of 10 problems each for students to complete within a one- to two-minute period. Providing daily practice in every key area of math instruction, Math Minutes is a fun way to improve students problem-solving speed (crucial for testing situations) and an instant assessment tool.
