It's just phenomenal!0 of 0 people found the following review helpful. Excellently written strategy guideBy sax o. phoneVery useful for not only beating the game but also the in-game extras such as the Alice quest and the training hall. The guide itself is separated into parts, one of which is a basic spoiler-free set of instructions on how and when to get further in the game, and another is the same thing but written in a more expository manner. It has a bit of a sense of humour too. Even if you've already beaten the game, it's a great supplement to the game itself.0 of 0 people found the following review helpful. Devil Summoner reviewBy TheCasualPunThis is a spectacular strategy guide. It is very detailed and has great area maps that are well designed and

easy to navigate. This is a guide for one of the best RPG franchises to date, the Shin Megami Tensai series.
