He is hearing impaired and speaks in American Sign Language. He truly enjoyed it - as, it gave him something to read and follow closely by instruction. His primary means of comprehension comes from visual learning. He found that producing magic tricks by this instruction manual was very easy to follow. He enjoyed it a lot! :-)/ mlk0 of 0 people found the following review helpful. Great book for a pre teenBy sillyworthThis is a great book for a beginner. Our grandson who is eleven loves fooling people and has really used this book as his "bible"! Recommended.

With this book, you can learn over 70 impressive magic tricks quickly and easily and impress your friends and families. You will need only your hands, your confidence and a few everyday objects such as pens, paper, coins and cards. With no difficult sleights of hand to learn and no special equipment necessary, this book is simply pure magic!
